

Dr. Mehmet Fuat Bozaba was born in Ankara in 1989. He completed his primary education in Ankara and Izmir, and secondary education at Denizli Anadolu High School (in English). Dr. Bozaba earned a Bachelor's Degree in Dentistry from Near East University in Nicosia, Cyprus as well as a Doctorate in the Department of Periodontology at Istanbul Medipol University with his PhD thesis, "EVALUATION OF HIF1- α , MMP-8 and MMP-9 LEVELS IN SALIVA IN SMOKERS WITH PERIODONTITIS." Currently, he is performing advanced clinical applications in periodontology, implantology, oral surgery, botulinum toxin, and dermal fillers.

Dr. Bozaba is a specialist in Periodontology and Oral Implantology, with expertise in Periodontitis and Gingivitis, also known as gum disease.

His main interests include **dental implants, soft and hard tissue regeneration around dental implants, "One Day" dentistry, "Khoury and Urban" techniques on alveolar bone regeneration and the use of periodontal plastic surgery techniques to regenerate gum recessions.**

Through Sahra Academy, he has taught many dental and medical practitioners how to use botulinum toxin in post-graduate courses in Botulinum Toxin and Dermal Fillers.

Dr. Bozaba has completed more than one thousand impacted wisdom tooth surgeries, **one thousand implant surgeries with external and internal sinus lifting process, and over seven hundred Free Gingival Graft and Connective Tissue Surgeries on gum recessions,** as recorded by the Ministry of Health System and Health Tourism Center at Istanbul Medipol University.
